

# HPV and the Immune System

Dear Parent/Carer,

We are planning to deliver a session(s) to help young people find out about the HPV vaccine on the following date:

We will be using materials developed through a collaboration between young people, researchers at the University of Bristol and London School of Hygiene and Tropical, the UK Health Security Agency, Sirona Care & Health, and Eight Creative Agency.

We hope to answer any questions the students might have on the day, but there may be some information that your son or daughter may wish to discuss with you at home. The leaflet for the HPV vaccine, which is available in different languages, can be found on the UK Health Security Agency website:

<https://www.gov.uk/government/publications/hpv-vaccine-vaccination-guide-leaflet>.

Kind regards,
